

RQ2 — Loose path correspondence can retain feasibility properties

A

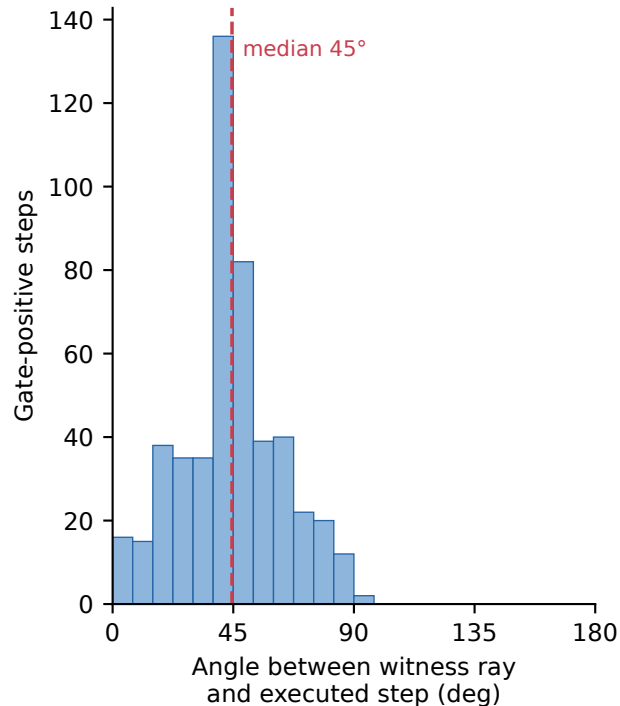

Logged geometry, episode 45
(gate-positive steps; field at step 10)

— executed path
... witness ray
— executed step
low-risk escape corridor
high-risk mud
hard (infeasible)

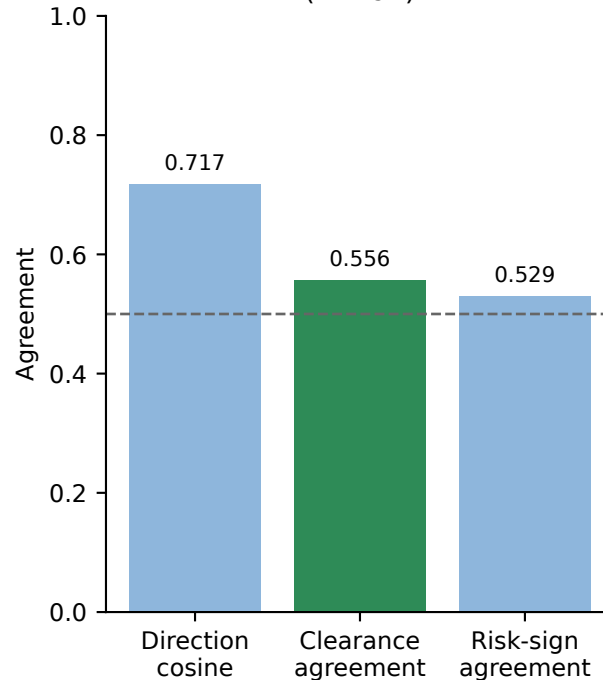

B

Paths diverge in direction
(n=492 decisions)

C

...but safety properties hold
(n=492)

D

Least-confounded
post-opening phase
